Notice of Informational Meeting on Basin Boundary Modification Request by Omochumne-Hartnell Water District

Date: March 18, 2016

Time: 10:00 am

Location: Rancho Murieta Community Services District Board
Room, 15160 Jackson Road, Rancho Murieta, CA 95683

Omochumne-Hartnell Water District (OHWD) is seeking a basin boundary modification to extend the boundary of the San Joaquin Valley Cosumnes Subbasin (5-22.16) north to include all of OHWD. The new northern boundary of the San Joaquin Valley Cosumnes Subbasin would follow the OHWD boundary along the District's eastern and western boundaries and along the district's northern boundary which coincides with Grant Line Road. This modification will remove Omochumne-Hartnell Water District from the South American Subbasin (5-21.65) and place all of OHWD into the San Joaquin Valley Cosumnes Subbasin.

At this meeting OHWD will present an explanation of the basin boundary modification and will be seeking input from local agencies and interested parties. For more information please visit the District's website at www.OHWD.org.
